

April 2026 Our Saviour Scoop

Dear Families,

Happy April! We are so grateful to welcome spring and all the new growth it brings! The students are loving the warmer weather and all the extra time spent exploring and learning outdoors. Each classroom has exciting learning that will happen this month! Our 1's are diving into all things spring as they explore plants and nature. The 2's are beginning their engaging study on light. The 3's and 4's have been learning all about the human body.

The week of April 20th will be our Family-Teacher conferences. This is one of our favorite times to connect with families, share about your child's progress, and celebrate all they have been learning. Be on the lookout for sign-up information coming soon!

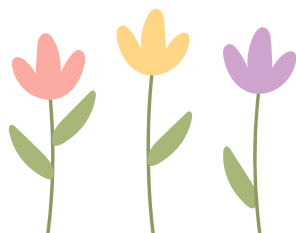

At this time we are also looking ahead to the final stretch of our school year! Teachers and students are preparing for our end-of-year program and celebration, and are so excited to share all of the growth from the year.

We are so grateful for the wonderful families who make Our Saviour Lutheran School such a special place. As we continue enrolling for the 2026-2027 school year, word of mouth means so much to our program. If you have had a positive experience, we would truly appreciate you sharing it with others, whether by telling a friend or leaving a kind review on Google. Your support helps other families find a preschool home!

Wishing you all a joyful and refreshing spring season,
Angel Peters
Director, OSLS

**Look deep into nature,
and then you will
understand everything
better."**

Spotlight: Outdoor Play

Outdoor play is essential for young children, supporting physical health, social skills, and curiosity through hands-on exploration.

Organizations like NAEYC and the American Academy of Pediatrics highlight that time outside helps children stay active and improves focus for learning.

At OSLS, we know that some of our best learning happens outside through movement, discovery, and play!
